

# Francis Hall

PRESERVATION BRICK PROGRAM

TEXAS A&M UNIVERSITY  
Construction Science

## HONOR SOMEONE SPECIAL WITH AN ENGRAVED BRICK

The Francis Hall Preservation Brick Program serves the dual purpose of supporting the Department of Construction Science, as well as celebrating donors and friends who mean so much to us. Funds raised through this program will support the Preservation and Maintenance of Francis Hall, home of the premier Construction Science Program in the Nation. To request information on how you can purchase a brick please contact: Melissa Sodolak [msodolak@tamu.edu](mailto:msodolak@tamu.edu)

Bricks can be engraved with your Name/Company, or you can purchase a brick to honor someone else. Your personal words of tribute will recognize extraordinary people in recognition of Graduation, Retirement or the impact they made on your life. Each brick you purchase will be a tangible testament to your dedication to the Department of Construction Science, our students and faculty.
